

## Scope and Sequence

- Preschool – Asking questions, making predictions, and solving problems through experiments and free play.
- Kindergarten & First Grade – Pre-keyboarding and Exploration
- Second Grade – Typing, Code Monkey, Word Processing
- Third Grade – Typing, Code Monkey, Google Docs & Classroom
- Fourth & Fifth Grade – Typing, Code Monkey, Google Docs & Classroom, Other online & in-person supplemental programs

## Our Philosophy at SCCS

STEAM & Project-based Learning have been integrated into the fabric of our program at SCCS since the founding of our school. From Preschool to Fifth Grade, we take learning from basic knowledge to the point where a student can teach and describe their learning to others.

## Distinctives

- Learning and activities are designed intentionally and built into our curriculum.
- Hands on and interactive, not solely screen-based learning
- Developmentally appropriate
